Ambient

Background

Harnett's Oils is a family-run business which prides itself in producing, cold-pressing and bottling functional food oils to the highest standards.

At present Harnett's Oils produce GM free hemp and rapeseed oil grown locally in Northern Ireland. The oils are full flavoured, pure and natural with all the goodness in oil to be used in a range of ways as salad dressings, dips for the hemp oil and as a frying oil or for marinades for the rapeseed oil.

Harnett's Oils recently diversified the core range to include vinaigrettes and flavour-infused oils.
